OBJECTIVE

Motivated Computer Science and Engineering student specializing in Artificial Intelligence, seeking a Data Engineering Internship to apply expertise in Python, Machine Learning, and data processing. Passionate about building robust data pipelines and deriving insights from large datasets.

TECHNICAL SKILLS

Languages	Python, Java, C, C++
ML / DL	Machine Learning, Deep Learning, scikit-learn
Data Libraries	Pandas, NumPy, Matplotlib, Seaborn
Web Development	HTML, CSS, JavaScript, Bootstrap
Specialization	Data Structures & Algorithms, OOP, AI, AR/VR
Tools	VS Code, Git, Jupyter Notebook

PROJECTS

Stock Market Prediction — Nifty 50

Python · Pandas · NumPy · scikit-learn · Matplotlib

- Built a data-driven ML model to forecast Nifty 50 stock trends using historical market data.
- Applied feature engineering, time-series analysis, and regression/classification algorithms.
- Evaluated model performance using RMSE and accuracy metrics with scikit-learn.

Car Mileage Prediction

Python · scikit-learn · Pandas · Linear Regression

- Developed a Linear Regression model to predict vehicle mileage from engine and performance features.
- Performed data cleaning, EDA, and feature selection using Pandas and NumPy.
- Achieved high prediction accuracy; prepared academic documentation and presentation.

College Recommendation System

Python · Pandas · NumPy · scikit-learn

- Designed an ML-based system that recommends colleges based on student scores and preferences.
- Implemented data preprocessing pipelines and similarity-based filtering algorithms.
- Processed and analyzed structured datasets to generate ranked recommendations.

Supermarket Transaction Analysis

Python · Pandas · Matplotlib · Seaborn

- Analyzed large customer purchasing datasets to uncover trends and behavioral patterns.
- Produced interactive visualizations highlighting high-value products and peak purchase periods.

Startup Mentoring Platform (Full Stack)

HTML/CSS · JavaScript · Gemini API

- Currently building a web application for startup founders with an AI chatbot for personalized mentoring.

EDUCATION

B.Tech in Computer Science and Engineering (Artificial Intelligence)

D Y Patil College of Engineering and Technology, Kolhapur | Expected Graduation: 2027 | 2nd Year

CBSE — Class 10th

Chhatrapati Shahu Vidyalyaya, Kolhapur | Year of Passing: 2020

INTERNSHIPS

Virtual AI Internship — Eduskills

- Explored core AI concepts and worked on real-world datasets.
- Gained hands-on exposure to neural networks, ethical AI, and practical ML applications.

ACHIEVEMENTS & EXTRA-CURRICULAR

- Finalist in multiple Hackathon events including Smart India Hackathon (SIH) — contributed to an Android app using Java.
- Volunteer at Google Developer Student Club (GDSC), D Y Patil College of Engineering and Technology.
- Ranked in top 5% of class; recognized for innovative project ideas at internal college expo.

STRENGTHS & LANGUAGES

Strengths: Strong Communication, Hardworking, Leadership, Quick Learner | **Languages:** English, Marathi, Hindi
